2. If you have no github account, use the steps to create an account.

Git installation Reference: <https://docs.github.com/en/get-started/quickstart/set-up-git>

3. From Android Studio, we can use Git. Close the open projects in Android studio and which goes to open Windows.

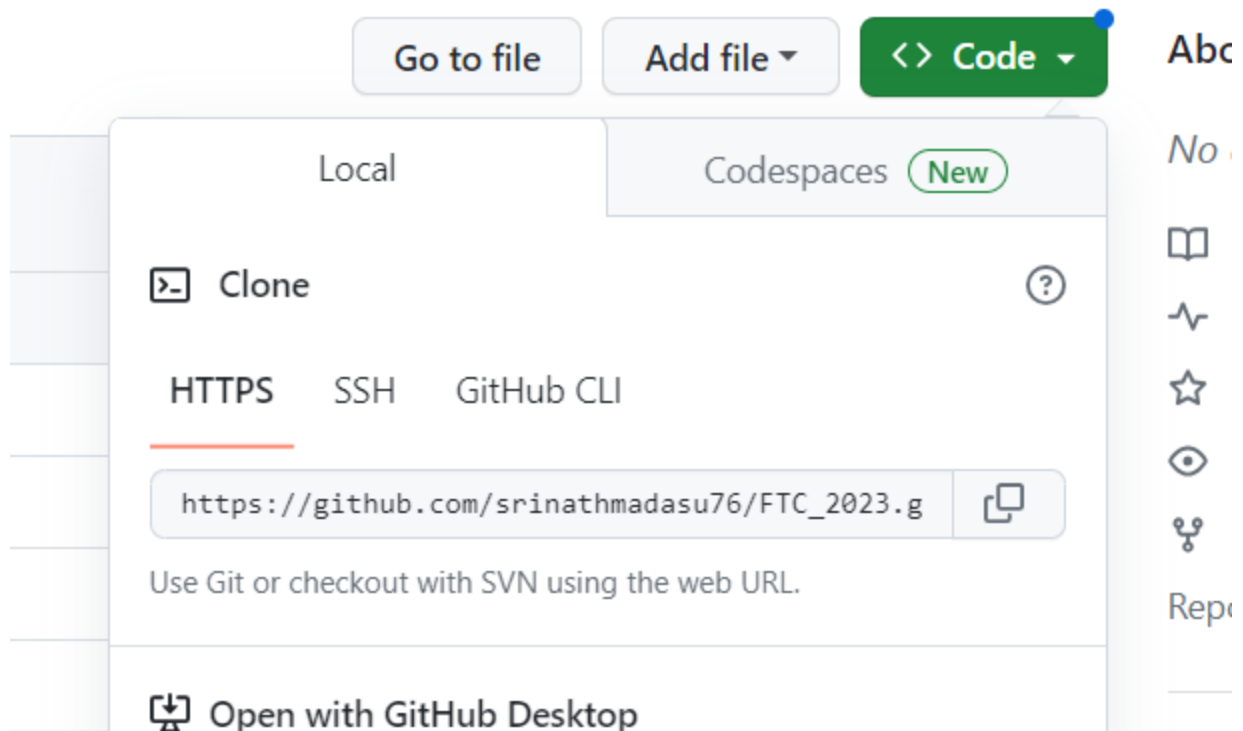

4. Choose Customize -> All Settings

5. Settings -> Version Control -> Git, and check if it has autodetect. Click the Test button (if git is not installed (textbox will be blank) . Click on test it.

C:\Program Files\Git\cmd\git.exe

6. Close all projects in Android Studio and choose the button "**Get from VCS**".

7. Copy the https path from github.com/srinathmadasu76/FTC_2023 (Green color code button, click the drop down, choose http and copy the url)

8. Once cloned, click on the right side bottom where it says "main", click on main (and where it says local branches -> main, click on main and click new branch from main. Type branch name (for example, feature/ajay_game_analysis) .

9. "Checkout branch" checkbox should be checked.

10. Make sure your newly created branch is in the bottom right side corner.

11. To Upload for Game Analysis,

- Right click on the Documentation folder and choose New -> Directory.
- Type directory name For example "GameAnalysis".
- To copy a GameAnalysis document open windows explorer and navigate to the folder where the file is. Select the file and do ctrl +c or right click and copy.
- Go back to android studio.
- Right click on the GameAnalysis directory and click paste.
- When prompted to add to git, select "Add".
- The file will be in green color under the "GameAnalysis" directory.
- From the top menu, select "Git -> Commit".

12. Commit and Push.

13. Type a message.

14. Go to github.com/srinathmadasu96/FTC_2023 and choose branches.

15. Create a pull request.
